Welcome to Johns Hopkins University’s Masters in Biotechnology Enterprise and Entrepreneurship Program!

Welcome and Congratulations!

Welcome to Johns Hopkins University. We are excited to have you join our Masters in Biotechnology Enterprise and Entrepreneurship (MBEE) program! The program offers students the ability to focus on understanding the business implications of a biotechnology organization, specifically. The MBEE is a 10-course, part-time degree program that can be completed entirely online. The program’s curriculum prepares students to address the enterprise and regulatory challenges faced by organizations in the biotechnology industry.

Course Requirements

Students in the MBEE program must complete six core courses, one practicum course, and three electives. It is recommended that the required core courses be taken in the following order, if possible:

6 CORE COURSES:

- 410.607 Proseminar in Biotechnology
- 410.627 Translational Biotechnology: From Intellectual Property to Licensing
- 410.643 Managing and Leading Biotechnology Professionals OR 410.689 Leading Changes in Biotechnology
- 410.644 Marketing Aspects of Biotechnology
- 410.687 Ethical, Legal and Regulatory Aspects of the Biotechnology Enterprise
- 410.680 Managerial Finance for Biotechnology

3 ELECTIVE COURSES:

Students may choose any three science, enterprise and regulatory elective courses for which they have satisfied the prerequisites. However, no more than one elective may be a business course. Students may choose a concentration in Bioscience Communication or Legal/Regulatory Affairs by taking the appropriate elective courses. For a complete list of electives and specified prerequisites, please see the course catalog.

1 PRACTICUM COURSE:

- 410.804 Practicum in Biotechnology Enterprise and Entrepreneurship

The practicum should be taken at the end of the program (as the 9th or 10th course) after all core course requirements have been completed.

Important Registration Dates

<table>
<thead>
<tr>
<th></th>
<th>Start</th>
<th>End</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer '12</td>
<td>April 9</td>
<td>June 6</td>
</tr>
<tr>
<td>Fall '12</td>
<td>June 18</td>
<td>Aug 27</td>
</tr>
<tr>
<td>Spring '13</td>
<td>Nov 5</td>
<td>Jan 14</td>
</tr>
</tbody>
</table>

Course Enrollment

We recommend that students register for courses as soon as possible once registration opens. Courses fill up quickly and early registration helps us determine if more course sections are necessary.

NOTE: To maintain their visa status, students with an F-1 visa may be required to be enrolled in a minimum of three courses each Fall and Spring term, of which only one can be an online course. If you are an international student, we do not recommend planning to complete the program onsite as the number of onsite courses are limited.

Advisors

Each student accepted into the program is assigned an academic advisor in accordance with the declared course of study. Advising is available year-round. Consultation takes place by phone, email, Internet or in person by appointment. We hope that you will find your studies with us interesting and valuable. Best wishes for success.
